EDUCATION

Bachelor of Information Technology (BIT)

Expected Feb 2027

Tribhuvan University

GPA: 3.54

- Merit Scholarship Recipient – 5th Semester Topper
- Merit Scholarship Recipient – 6th Semester Topper

TECHNICAL SKILLS

LANGUAGES: Python, JavaScript, TypeScript, SQL

FRAMEWORKS: Django, Django REST Framework, Next.js, Tailwind CSS

AI/ML: Scikit-learn, Pandas, NLP, Decision Trees, Recommendation Systems, LLM APIs

DATABASES: PostgreSQL, SQLite

TOOLS: Git, GitHub, Docker, Celery, Redis, VS Code, Vercel

PROJECTS

Medi: AI-Powered Hospital Management System

2025

Django, DRF, Next.js, Scikit-learn, Celery

- Developed patient and doctor management modules supporting appointment scheduling, medical records, and role-based access control using Django REST Framework.
- Built a Decision Tree based Heart Disease Prediction Model using healthcare datasets.
- Implemented AI-powered medical report analysis using LLM API integration.
- Integrated Celery for asynchronous backend processing.
- Performed UML design, testing, documentation, and Git-based collaboration.

Readkin: AI-Powered Social Book Tracker

Python, Django, PostgreSQL, Scikit-learn, Gemini API

- Developing a social reading platform with AI-powered recommendation systems.
- Building hybrid recommendation engines using collaborative filtering and LLM APIs.
- Integrating Google Books API and personalized recommendation algorithms.

TECHNICAL & WORK EXPERIENCE

Illuminati Organization

July 2026 – Present

Full-Stack Developer & Researcher*Remote*

- Engineered core full-stack features for nationwide web platforms like Question Nepal, implementing responsive interfaces and robust backend workflows to handle end-to-end user interactions.
- Architected data collection pipelines and managed dynamic questionnaire engines, ensuring data accuracy, schema consistency, and high throughput across high-volume research responses.
- Driven end-to-end software quality, leading testing, debugging, and code validation cycles to eliminate critical application bottlenecks and improve platform stability.
- Spearheaded regional technical operations across Sudurpaschim Province, bridging engineering operations with cross-functional research teams to drive platform adoption and manage live data workflows.

AI Language Data Contributor**2024***Freelance Proofreader & Transcription Specialist*

- Completed 50+ language data tasks involving audio recording, transcription, and proofreading for AI and speech recognition projects.
- Reviewed and corrected transcripts by comparing audio recordings with text, ensuring high accuracy in grammar, punctuation, formatting, and speaker intent.
- Recorded high-quality voice samples from assigned scripts while adhering to pronunciation, recording, and quality guidelines.
- Performed transcription, translation, and typing tasks with consistent attention to detail and on-time project delivery.

LEADERSHIP & COMMUNITY

Microsoft Learn Student Ambassador**October 2024 – Present***Student Ambassador*

- Promoted technical education through workshops and community initiatives.
- Collaborated directly with Github to conduct Github Copilot Dev days event.
- Facilitated community events focused on AI and machine learning technologies as mlsa.

Youth Advisory Leadership Council (YALC) Lead – YUWA**March 2024 – April 2025***Facilitator and Event Lead*

- Facilitated Comprehensive Sexuality Education (CSE) programs in local schools for 8 months.
- Organized local youth leadership and awareness events in Bhairahawa.
- Collaborated with organizations such as American Corner, Neptech, Shree Shanti Namuna Secondary School, and Belahiya School.
- Managed social media platforms, blogs, and digital outreach activities to boost community engagement.

Country Ambassador – Youth Opportunities**Jan 2024 – Jan 2025***Student Ambassador*

- Promoted educational and professional development opportunities to students via regional digital platforms.
- Created targeted digital content and graphic designs for the Youth Opportunities Facebook group to boost organic reach.

Code for Change – Tech Conclave Organizing Team**2023 – 2024**

Member

- Collaborated in organizing a national tech conclave featuring prominent industry speakers from eSewa and other ecosystem partners.
- Managed participant engagement, logistical workflows, and event operations.
